About the Organization

The Junior Chamber International (JCI) is a global organization of young active citizens, purposely aimed to create positive change in local communities.

Our Local Organization(LO), JCI Philippines' Cebu Sinulog, Inc., is a local organization in the country committed to realizing this aim through various humanitarian projects.

The JCI Declaration of Principles

We believe:

- That faith in God gives meaning and purpose to human life;
- That the brotherhood of man transcends the sovereignty of nations;
- That economic justice can best be won by free men through free enterprise;
- That government should be of laws rather than of men;
- That earth's great treasure lies in human personality;
- And that service to humanity is the best work of life.

JCI Mission

“To provide development opportunities that empower young people to create positive change.”

- This mission is accomplished through the action and results of the members at the Local Organizations.
- It is at the local level and only at the local level where the Mission is accomplished.

Don't use plastic straws

HELP SAVE THE ENVIRONMENT

#OneSipAtATime

#NoToSingleUsePlastic

#STRAWngerWeRICE

#TogetherWeCanAcelt

why only use

All Natural

RiceStraws™ uses 100% all-natural ingredients, mainly rice flour and tapioca plus natural colors from natural food sources like carrots, beef roots, spinach etc.

Eco-Friendly

RiceStraws™ promotes green living because it is not harmful to the environment. After using it, it will leave zero carbon footprint to our mother earth.

Biodegradable

RiceStraws™ completely breaks down and decomposes into natural elements in less than 100 days once disposed.

Be Better.

Disaster Management Gap

- What is the gap/challenge?
- What is the effect of the gap to the organization, to its stakeholders?
- What is the cause of the gap/challenge?
- Relevant data
- Concrete example of how the gap/challenge affects stakeholder

Disaster Management Gap

- Lack of Risk Assessment and knowledge in dealing with disasters
- Inability to respond in case of medical emergencies
- Failure to consider risk that comes with doing events.
- Absence of medical staff on all our activities like treeplanting, relief operations drive, etc.

Possible IT Solutions

- Portal by which Stakeholders donate to support community projects
- Will help properly account donations
- Better planning on resources

Appeal to Solutions Providers

- Lack of Knowledge on Disaster Preparedness, Risk assessment and prevention
- No existing donation tracker system except the one in the bank.
- Will help better our system of addressing medical emergencies
- Better resource planning and allocation of local projects in the community
